

The End

Sylver

I'm about to reveal the tale of our love
I'm about to clear my mind
Ever since you ignored my silent scream
Ever since you were so blind

There are so many secrets still unfold
So many things unsaid
Why you had to go dancing in the dark
Why you sacrificed what you had

This is where we end
This is where we stand
On the verge of life there's nothing left to comprehend
This is where I go
This is where I bend
There is nothing more to cherish, nothing to defend

I just tried to bring out the best in you
I just tried to ease your mind
Maybe I should have let you choose your way
Maybe I should leave it behind

There is no more sweetness in your smile
No more laughter in your eyes
There is no more tenderness in your touch
Was it only a disguise?

This is where we end
This is where we stand
On the verge of life there's nothing left to comprehend
This is where I go
This is where I bend
There is nothing more to cherish, nothing to defend

As you lie here beside me, asleep with the night
I follow my heart and kiss you goodbye

This is where we end
This is where we stand
On the verge of life there's nothing left to comprehend
This is where I go
This is where I bend
There is nothing more to cherish, nothing to defend

This is where we end
This is where we stand
On the verge of life there's nothing left to comprehend
This is where I go
This is where I bend
There is nothing more to cherish, nothing to defend
