

# Forevermore

Symfonia

You saw the future before your eyes,  
You haven't known who you are  
So many wrong steps you've walked.  
But were they wrong at all?

Fate is a book written on your own  
Pages you read in the dark  
Don't be scared of the sight down below  
When you lift off and fly, straight to the sun

Forevermore, we'll live a dream  
Life is brighter than it seems  
There's a place for you and me, forevermore!  
And in the hardest days we'll sing  
Like we've never sung before  
All troubles fade away, forevermore

I have been wandering across the world  
I have been looking for love  
Somewhere I've driven insane  
And there I left my soul

I found a motive inside your eyes  
To stand up and recompose  
Now we know, the time has arrived,  
We'll tear down the skies, forevermore...

Forevermore, we'll live a dream  
Life is brighter than it seems  
There's a place for you and me, forevermore!  
And in the hardest days we'll sing  
Like we've never sung before  
All troubles fade away, forevermore

Forevermore, we'll live a dream  
Life is brighter than it seems  
There's a place for you and me, forevermore!  
And in the hardest days we'll sing  
Like we've never sung before  
All troubles fade away, forevermore
