

## Evolution (The Grand Design)

### Symphony X

Born from the light - journey into the moment,  
Delivered from thought and sky  
He will be one, one with the land -  
Lord of wind and the sea and the sands  
The one - The bringer of life

All will bear a part of me - let this  
hollow shell set your free to live as one

Here we are - Children of Sun and Stars  
the first to know and to understand  
Living by the Law of the Ages  
prophets and sages - forging Utopia

Great Ptah - Khnemu - sacred priest of the Temple of Ra  
and the keeper of truth  
Crystalline spheres, the power of light,  
grant us keys to the stars and the secrets of flight  
'Five shall be as One'

We unlock the mysteries of knowledge and technology

Here we are - Children of Sun and Stars  
the first to know and to understand  
Living by the Law of the Ages  
prophets and sages - forging Utopia

'We shall live forever, and cast out those less divine  
Gods we will be - rulers of the sea - in our Grand design'

Here we are - Children of Sun and Stars  
the first to know and to understand  
Living by the Law of the Ages  
prophets and sages - forging Utopia

'...and to create entirely new beings was an even greater  
display of thier power, but in attempting to merge thier  
energies, some of the newly made beings were  
disfigured...and there were altered creatures with wings,  
hooved legs and tails - part human, part beast.  
And they became divided...'
