

# The Walls of Babylon

## Symphony X

Down the plains - come Hell Riders  
blood of ice and hissing breath  
Consumed by this lust - into battle  
staring down the Eyes of Death

Skies of Red - Winged Thunder Breathing  
Lightning Fire - Invaders - Light slayers  
Cut down the fiends and betrayers  
Dark destroyers - can't avoid or deny us

War Hammer of the Gods  
Bring down the Walls of Babylon

Legions of Lies- beating down the Lamb  
Wings of War, they pulverize  
Wrath is my name - feel the Hatred  
hurling defiance toward the skies

Skies of Red - Winged Thunder Breathing  
Lightning Fire - flesh churning - blood burning  
the gears of War, ever turning with conviction  
Malediction is King

War Hammer of the Gods  
Bring down the Walls of Babylon

So here I stand - beyond Apocalypse  
God of Pain - in lethal stealth  
Casualty of Pride - I will never be denied  
A Lord of War... at war with Myself

Skies of Red - Winged Thunder Breathing  
Lightning Fire - earth shaking - bones breaking  
the Hand of Fate dominating  
one by one the Stars are Falling

War Hammer of the Gods  
Bring down the Walls of Babylon
