

Time To Fly

Syntax

It's time to fly
Soon we must die
We are running dry
We are always high

And I never wanted to say this
You used to make my life bliss
And I never wanted to see this
I see your disguise along with your lies

Oceans slowly rise time to fly

Time to go to sleep it's dawn
Wrapped in essential smokeable lawn

Oceans slowly rise...time to fly

You don't understand what life is
Your time here is only crisis
You need to evolve
You need to resolve
It's time to fly

Oceans slowly rise...time to fly
