

I Wanna Be By Your Side

Syreeta

At any given time and I'm really giving
I wanna be by your side baby
Just to put a little smile on your sad but lovely face
You need me right by your side
To stay right there and love you
I won't ever let you down
I want to be by your side
I don't care, right there by your side

To convince this heart of mine
Well that's gonna take some time
I've heard these sweet things before
But I'd like to get to know
If your love's that wonderful
Oh then you should be by my side
To stay right there and love me
I won't ever, ever, ever let you down
I want to be by your side
I don't care, right there by your side

I'll stay right here and love you
I won't ever let you down
I want to be by your side
I don't care, right there by your side

I want to be by your side
I want to be by your side baby
C'mon, I want to be oh baby...
