sZa

High up on, high  
High up on, high

High up on, high up on, high up on you  
High up on, high up on, high up on us  
High up on, high up on, high up on  
High up on, high up on, high up on you  
High up on, high up on, high up on us  
High up on, high up on, high up on we  
High up on, high up on, high up on, kush for me

I'm high moon, high moon  
High up on, high up on, high up on us  
High up on, high up on, high up on  
High up on, high up on, high up on you  
I'm high up on, high up on high up on

Didn't I tell you  
Didn't I say that  
Didn't I tell you  
A high like this won't last?  
Didn't I tell you  
Didn't I say that  
Didn't I tell you  
A high like this won't last

So I'm the fool, you could make it  
Don't wanna be alone with him naked  
Be a shame we're just gonna waste it  
Oh

High up on high  
High up on climax  
High up on you  
High up on you should spend the night  
Ima do my thang  
High up on high up on we  
High up on high up on high up on

Didn't I tell you?  
Didn't I say that?  
[4x]

K bye
