

# Tear This Building Down

T-Bone Burnett

She's been told she's very bold  
She takes dares seriously  
Her face burns bright on our screens tonight  
Till we fall asleep deliriously

She does a high kick for a live psychic  
She puts her secrets on the line  
I love you baby, I love you crazy  
I love you till the end of time

If I had my way, if I had my way  
I would tear this building down  
If I had my way, if I had my way  
I would tear this building down

She must be dreaming, the wires are teeming  
She leers a smoky sideways glance  
I love this town in its evening gown  
I love it at ten cents a dance

So I'd turn it white with dynamite  
Set the fuse then strike a match  
Watch it fall 'neath the wrecking ball  
Start over again from scratch

If I had my way, if I had my way  
I would tear this building down  
If I had my way, if I had my way  
I would tear this building down  
I would tear this building down

If I had my way, if I had my way  
I would tear this building down  
If I had my way, if I had my way  
I would tear this building down  
I would tear this building down  
I would tear this building down
