Had to fuck a ball player and I'm here every night  
Maybe twice, late at night we  
Be in white tee's, me and skateboard P no Nike's  
Just a pair of Margiella,  
Get a broad tell her rain dance for this paper  
Better get an umbrella  
Yeah, had guns like an arms dealer,  
Dream team lawyers he ain't never been a dumb nigga  
Nigga, this ya girl, better come get her  
Turn her to a dick monster, nut muncher  
Sperm rag cum dumpster, left amongst her  
Bitches in the past, pretty titties, plenty ass  
They just drink up what we give 'em  
Take shots without any glass

A lot of niggas out there think that they can do what we do  
Be my guest, go front for the people  
But just like a store front, they gon' see through  
That you sweet like bubble gum and they gon' eat you  
How you blowing up nigga, they chewing you  
And when you hit rock bottom, they shewing you  
Like "ooh you, ooh, get away"  
Not you, yeah right, OK  
Don't listen to these guys  
These niggas full of lies  
Cut 'em open and they cover up the floor, you surprised  
Every time they talk about what they gon' get  
They been looking at my blog, knife and forking my shit  
While I'm tryna get the new G-5 with the kit  
With the bed in the back cause my son hate to sit

And all that dark blue shit, y'all niggas been had  
My diamonds rainbow like the register for black  
Every aspect whether, plane, boat, or pad  
Total brightness like a chain post a have  
Got it from the ring so they know that they straight  
Plus the Audemar twins, I guess my wrists couldn't wait to tell ya
