

## I'm Back

T.I.

I never let you down, I'ma shine on sight  
Keep your mind, on your grind, and off mine's alright? Right  
Hard i'm a ball on them squares i floated  
Quarter million dollar cars everywhere I go  
I know in the lead it may seem they might be  
But no matter what they doin' they don't do it like me  
Like a G I hold it down for the town I'm at  
And I flash like that recognize I'm back!

Strike a match catch a fire any moment I decide  
That's enough of all your lies boy your buzz just died  
Step inside super fly to the shoes in they coupe  
Then exit out with all the bitches like we always do  
My desire to retire grows with every new group  
Cause these guys just don't ride like my nigga you too  
Tight jeans, funny hair cuts, dancin' on the screen  
It's about the real niggas in the game so it seems  
Just pretendin' holla pimpin' give this shit a black eye eye  
Next he say he trappin' in my head I'm like why  
Be yourself, you ain't gotta pimp bone in your body  
I can tell ya ain't never bought a key or caught a body  
Nigga probably just seen Wayne, Gucci Mane  
Me and Boosie all go to prison  
Now he flipped his whole image nigga trippin'  
Listen, dude, for you that ain't in the cards  
Think the power is in the gun, but over all it's in your heart  
Nowadays I don't know wassup with niggas in the A  
Guess he think he in the game but he really in the way  
Violatin', I was having conversations in the joint  
With cats who done it and i promised i would put you on point  
I'm disappointed in you dog you ain't holdin' it down at all  
But I ain't going in your jaw just gon' show ya how to ball  
Standin' tall through the storm on the yard or in the dorms  
Cats in prison who expectin' me to represent for them

I never let you down, I'ma shine on sight  
Keep your mind, on your grind, and off mine's alright? Right  
Hard i'm a ball on them squares i floated  
Quarter million dollar cars everywhere I go  
I know in the lead it may seem they might be  
But no matter what they doin' they don't do it like me  
Like a G I hold it down for the town I'm at  
And I flash like that recognize I'm back!

Strike a match catch a fire see T.I add gas  
What's a molotov cocktail that never break the glass?  
Scary ass nigga wanna come for me you better bring it  
I ain't mad I forgive em, God I know they ain't mean it  
Yeah I seen it all before, hater pop it and they ain't  
Rack they brain try to think how to stop it and they can't  
Ain't that lame but then the hatred manifest to pure malice  
I'm no longer being callous I'm a let you niggas have it  
Won't be satisfied till somebody dies and I'm patient  
Waitin' on me and the reaper on a first name basis now  
I'm a let you make it now, stay totally out the way for you  
But know that we can take it any place you wanna take it to  
Hatin' in your blood cuh guess it's just too late for you

All I could do is pray for you or organize a wake for you  
Your choice, clearly I ain't hearing your voice  
Keep it up and i'm gon' send your ass to deal with aunt joyce  
Hey, you can have the bottom partner i'm up in the the sky box  
I got shit locked down nigga why stop now  
I'm so above you hover over suckers, why drop down?  
I'm so profound it goes down and I ...

I never let you down, I'ma shine on sight  
Keep your mind, on your grind, and off mine's alright? Right  
Hard i'm a ball on them squares i floated  
Quarter million dollar cars everywhere I go  
I know in the lead it may seem they might be  
But no matter what they doin' they don't do it like me  
Like a G I hold it down for the town I'm at  
And I flash like that recognize I'm back!
