

## Private Show

T.I.

Girl take it off for me, you know just what I want  
It's always hard to leave, this private show  
Let me see it, see it, let me see it take it off  
Let me see it take it off, take it off (let me)  
Let me see it take it off, take it off  
Shawty let me see you take it off, toot it up  
Back into me, pass it to me  
Imagine hanging half way off the mattress while your a\*\* is moving  
Up and down, back and forth, so ratchet when you supposed to be  
A lady to the naked eye, but a nasty lil' hold of me  
If only the masses could see your a\*\* when it's in action, I swear  
Manhandle you and pullin' places, I make you take it right here  
You got no idea, listen girl with this pole right here, ow  
Beat it up, be grabbin' hair  
Leavin' hand prints on your derrière  
Now, can you, just kiss it for me while I'm doin' 'bout a hundred on the highway  
Get it, slap it wet, get it bent, girl I bet you could finish before I pull  
up on the driveway  
And this ain't no child play, this grown man girl I'll say  
I got your a\*\* in the scope, ain't gotta be close shawty I could your p\*\*\*y  
from a mile away  
Girl take it off for me, you know just what I want  
It's always hard to leave, this private show  
Let me see it, see it, let me see it take it off  
Let me see it take it off, take it off (let me)  
Let me see it take it off, take it off  
Hey let me see you take it off, lay it down  
Like this my last day in town  
I'm puttin' in work no playin' around  
But shawty I'm sayin', now  
Me let you walk away without walkin' funny  
Be talkin' bout me, I highly doubt it  
So, let me take you to a private island  
Make you take this d\*\*k, don't cry about it  
How it feel to you girl? Don't lie about it, no  
Shawty you ain't gotta lie about it  
Blackin' out in that p\*\*\*y like a power outage  
Got a man, well he gon' be our about it  
But I just wanna be on your team  
Provide you with your protein  
Leave wet dreams all in your face  
Them tattoos all over your waist  
Got me silent, can't touch that  
I'm fu\*\*\*n' you like I'm upset  
Chockin' you, long stroking you  
Say you came twice, not enough yet  
Because a cat that ft is very rare  
And my d\*\*k ought to be buried there  
I love how you kick it in public  
But in private, we on some wild s\*\*t  
Girl take it off for me, you know just what I want  
It's always hard to leave, this private show  
Let me see it, see it, let me see it take it off  
Let me see it take it off, take it off (let me)  
Let me see it take it off, take it off  
Made a reservation, you're my favorite place to be

All day, contemplatin' baby, waitin' patiently  
There's nobody like you, body way you climb on top of me  
We're in hell and lady you're the closest thing to heavenly  
I want you all to myself, nothing at all, I can't help it  
Cause what you go on is fly as hell, but I need a better view  
Just show me the real you  
Girl take it off for me, you know just what I want  
It's always hard to leave, this private show  
Let me see it, see it, let me see it take it off  
Let me see it take it off, take it off (let me)  
Let me see it take it off, take it off
