

Bring It On

T.M.Revolution

Get set !

Bring it on. Show me the ray of light.
Bring it on. Another day goes by.
Bring it on. Show me the ray of light.
Bring it on. Another day goes by.

You know you'll never change your ways
And I don't mean the life you lead
You never give a thing away
But I don't want to be the one

You tried so hard to be someone
That you forgot who you are
Do you know just where you are
Now everything's so far away

Bring it on. Show me the ray of light.
Bring it on. Another day goes by.
Bring it on. Show me the ray of light.
Bring it on. Another day goes by.

No one knows the way you feel
And I don't mean the life you need
I don't want to think like you
But I don't want to lose my mind

When it's so hard to be yourself
It's hard to be someone else
So you forget where you are
Now everything will fade away

Bring it on. Show me the ray of light. (now or never)
Bring it on. Another day goes by. (over and over)
Bring it on. Show me the ray of light. (more than ever)
Bring it on. Another day goes by. (never ever)
