

# Leaving Home

T. Mills

I love the way home feels and smells,  
Been here since 12,  
That's where I tripped,  
That's where I fell,  
I sleep by that tree and dreamt so well,  
I never knew ah girl like you ah  
And I sure won't meet another  
But if you can't see  
That this old street isn't big enough for me then

We live in different places imma just go, imma just go  
You can stay in the small town  
But imma breakout  
I'd rather lose your love then have to stay and live in doubt  
Now I'm leaving home  
For another place on a different street in a different state  
Now I'm leaving home cause you always say it's the only way you'd wish I'd  
Stay  
Now I'm leaving home I'm leaving home

I can find a place that's well a good as well as you  
But I need change and change needs me too  
I can't come second but first of all it's not my fault  
You maybe hate me tryna blame me your friends wont hear my side at all  
We'll split and tear bid farwell you told me I'm not welcome here  
We can laugh it off  
Over coffee when I visit next year  
It's just the

We've been in different places, imma just go, imma just go  
You can stay in the small town  
But imma breakout  
I'd rather lose your love then have to stay and live in doubt  
Now I'm leaving home  
For another place on a different street in a different state  
Now I'm leaving cause you always say it's the only way you'd wish I'd stay  
Now I'm leaving home I'm leaving home

Wacth me go  
We've been in different places imma just go, imma just go  
You can stay in the small town  
But imma breakout  
I'd rather lose your love then have to stay and live in doubt  
Now I'm leaving home  
For another place on a different street in a different state  
Now I'm leaving home cause you always say it's the only way you'd wish I'd  
Stay  
Now I'm leaving home, I'm leaving home

We've been in different places (5x)
