

# Riverside Girl

T. Mills

And I was somewhere out in London  
Learning some shit about her friends  
But I fell in love with Riverside  
And now she wanna hold hands  
Well let me see your motherfucking hands

So dope, so cold, all around the globe, though  
Now you boys is global  
You know I get around the girls that I met  
Bring me back to life in Riverside you know you like that  
All these girls are like that and I really like that  
That's how when I leave I always tell them I'll be right back  
Right back like that, London for a night cap  
Then go where the lights at, girl, you know I like that  
Girl, you know I like that

You look like a Riverside girl  
Got drive from Riverside girl  
Slide up in the ride, girl  
Right into my world  
She was a Riverside girl

And I was somewhere out in London  
Learning some shit about her friends  
But I fell in love with Riverside  
And now she wanna hold hands  
Well let me see your motherfucking hands

So cool, so chill and you live at home still  
You just pay the phone bill  
I know you get tired of the same shit  
Show you life outside of Riverside, I know you'll like it  
All these girls would like that but I never write back  
Let's just stay another night at my mom and dad's pad  
Cat nap like that then Paris for a backpack  
Then go where the sites at, girl, you know I'm like that  
Girl, you know I'm like that

You look like a Riverside girl  
Got drive from Riverside girl  
Slide up in the ride, girl  
Right into my world  
She was a Riverside girl

And I was somewhere out in London  
Learning some shit about her friends  
But I fell in love with Riverside  
And now she wanna hold hands  
Well let me see your motherfucking hands

And I just wanna go home  
So take me back home, girl  
And no, I can't stay long, oh  
But I wanna go home, girl  
And I just wanna go home  
So take me back home, girl  
And no, I can't stay long

But I wanna go home

You look like a Riverside girl  
Got drive from Riverside girl  
Slide up in the ride, girl  
Right into my world  
She was a Riverside girl

And I was somewhere out in London  
Learning some shit about her friends  
But I fell in love with Riverside  
And now she wanna hold hands  
Well let me see your motherfucking hands
