Smoke and mirrors (4x)

Even stars burn out  
It's funny how they hate  
But I'm all they talk about  
Doubts were a constant thing  
I was in constant need of we constantly  
Now my concert fee  
Has me never looking back again

All these people try to pull me down  
Telling me you ain't gonna make it, you ain't gonna make it  
But I'm not breaking  
All these people try to fool me now  
Asking me when we gonna kick it when I get different  
But I'm not slowing down

Switch on once I get my rich on  
I take a picture of my dick for 'em to put them lips on  
I ain't no fast one last long  
Get up on my fashion  
How you talking shit but stalking pics from what I have on?  
Damn change the subject 'cause lately I'm like fuck it  
But it's funny how my haters ain't gonna say no shit in public  
Got my youngins  
And if you didn't hear it it's motherfucking getting 'em  
And anybody near it  
That's the spirit  
Get too close and ima lose you  
Your mind is a powerful thing, do what you choose to  
And just to make shit a little clear I know some fake motherfuckers  
It's all smoke and mirrors, let 'em know

All these people try to pull me down  
Telling me you ain't gonna make it, you ain't gonna make it  
But I'm not breaking  
All these people try to fool me now  
Asking me when we gonna kick it when I get different  
But I'm not slowing down

People come and people go, I'd like to think I did this all on my own  
People come and people go, oh, people go

All these people try to pull me down  
Telling me you ain't gonna make it, you ain't gonna make it  
But I'm not breaking  
All these people try to fool me now  
Asking me when we gonna kick it when I get different  
But I'm not slowing down
