

Wing and a Prayer

T'Pau

Pretty little face
Don't fit around here no more
Guess you're in disgrace
Wild side got the better of you
Oh, got your face pressed up 'gainst the window pane
Baby don't give up don't ever walk away
Got your hand held out
Dare to ask for more
You can figure how to open up the door

With a little luck on a wing and a prayer
With a lot of love we can make it anywhere
With a little hope maybe if we dare
With a little luck we're gonna make it yeah!

You got a voice and you got taste
And when you make a choice
You got a feel for the human race
Oh, got your head held high
Looking straight ahead
Dare to question why they said the things they did
Wipe away that tear you're not suffering
Let me make it clear don't ever change a thing

With a little luck on a wing and a prayer
With a lot of love we can make it anywhere
With a little hope maybe if we dare
With a little luck we're gonna make it

Life's an open book if you take a look
Turn the page to find yourself running away
You can't do it got to work through it
Keep looking and your heart will show the way
Your heart will show the way!

Got your head held high
Looking straight ahead
Dare to question why they said the things they did
Wipe away that tear you're not suffering
Let me make it clear don't ever change a thing

With a little luck on a wing and a prayer
With a lot of love we can make it anywhere
With a little hope maybe if we dare
With a little luck we're gonna make it

With a little luck on a wing and a prayer
With a lot of love we can make it anywhere
With a little hope maybe if we dare
With a little luck you know we'll make it

With a little luck on a wing and a prayer
With a lot of love we can make it anywhere
With a little hope maybe if we dare
With a little luck you know we'll make it

With a little luck on a wing and a prayer

With a lot of love we can make it anywhere
With a little hope maybe if we dare
With a lot of love we're gonna make it
