

Beltane Walk

T. Rex

Trucking down by the roadside
Met a man with a starhide
He said boy wouldn't you like to look
But could it give me love
Give me little love from her heart

Bopping down by the whirlpool
I met a girl she was god's tool
I said girl wouldn't you like to rock
But could it give me love
Give me little love from god's heart

Walking down by the westwind
I met a boy he was my friend
I said boy we could sing it too
And we do
Give us love
Give us little love
Give us little love from your hearts

And then we'll walk.
