

## City Port

T. Rex

City port, city port, city-city-city port  
I went to the city port  
City port took my blues away  
I went to the city port  
City port took my blues away, yes they did  
I lost all my city cool  
When I bought your midget show  
I grew all debonaire  
When I had the 1980's air, in your hair  
That's right  
I went to the city sight  
A young love took my soul away  
Peering eyes and Persian skies, removed my eyes  
And took them right away, took them all away  
Just like  
I lost all my city cool  
When I bought your midget show  
City Port  
And it took them, took them all away  
And it took them, took them all away  
City Port
