

## Organ Blues

T. Rex

There's gold in the mountains  
And a people living in the sea

I love you and don't you know  
That you love me  
Yes you do

We make feasties of the beasties  
But the beasties just live in the wild

You know that you're slower now  
And you were faster when you were  
A child  
Yes you were.
