

Precious Star

T. Rex

Like a precious star

Ooh like a precious star you are,
Ooh like a precious star you are,
I wanna spend my life with you
Ooh like a precious star you are,
And will you love me
Like you said when we met child
Ooh like a precious star you are,
Ooh like a precious star you are

Ooh like the silver moon above
Is the night right for love,
Ooh like the silver moon above
Is the night right for love,
But will you love me
Like you said when we met child
Ooh like a precious star you are,
Ooh like a precious star you are

Do do do da do da do
Da do da do da
Do do do da do da do
Da do da do da
I wanna spend my life with you, yeah
Do do do da do da do
Da do da do da
But will you love me
Like you said when we met child
Ooh like a precious star you are,
Ooh like a precious star you are

Like a precious star you are
Like a precious star you are
Like a precious star you are
But will you love me like you said when we met child
Ooh like a precious star you are,
Ooh like a precious star you are

Oh yeah Oh yeah Oh yeah, like a precious star you are
