I never got along with the girls at my school Filling me up with all their morals and their rules They'd pile all their problems on my head I'd rather go out and fuck the dead

'Cause I can do what I want And they won't complain I wanna fuck, I wanna fuck the dead

Middle of the night so silently
I creep on over to the mortuary
Lift up the casket and fiddle with the dead
Their cold blue flesh makes me turn red

Do what I want
And they won't complain
I wanna fuck, I wanna fuck the dead

And I don't even care how she died But I like it better If she smells of formaldehyde

Never on the rag or say leave me alone They don't scream and they don't moan Don't even cry if I shoot in their hair Lying on the table she smiles and she stares

'Cause I can do what I want And they won't complain I wanna fuck, I wanna fuck the dead
