T.S.O.L.

animals and fascist kind attack the world and sell their  
crime, starve the children kill the poor, i've never seen  
what they're good for, practice sickness, practice lies,  
practice imatating vice, feed your wallet not your head,  
remember man that god is dead, i'll see you tomorrow and  
you'll still feel the pain, i'll see you tomorrow does  
nothing ever change? governments of mind not men, divide  
the world and hem us in, images of future black, you  
think i care who's comming back? policies of death begin,  
your children suffer for your sins, ignorance and open  
hate, we reap the seed that we create, i'll see you  
tomorrow, and you'll still feel the pain, i'll see you  
tomorrow does nothing ever change? i'll see you tomorrow  
'cause you mean more to me, i'll see you tomorrow oh you  
silly thing, the government of man and the politics of  
evil, government of man and the politics of evil,  
goverment of man and the politics of...evil destruction  
and world evolution, total corruption and world  
revolution, you say vicious, i say charming what the fuck  
let's have a party, war machine and c.i.a your eyes are  
dimmed more everyday, love your t.v., hate your mind see  
your fears materialize, lose your children, lose your  
time, love the things that keep you blind, i'll see you  
tomorrow, and you'll still feel the pain, i'll see you  
tomorrow does nothing ever change? i'll see you tomorrow  
'cause you mean more to me i'll see you tomorrow oh you  
silly thing
