

White Lightning

T.S.O.L.

I've seen you dancing
With your high heel shoes
They way you talk giving me the blues
After hour sister looking for a fool

I've got something for you

Your animal the way you carry your stuff
Eyes on fire your too hot to touch
You always want something but you'll never be true

I've got something for you
I've got something for you

You've got your pretty face on
But you don't look so good no more
I've seen your smilin' face on
Vut your not laughing anymore

Your white lightning baby
Coming down on me
Your white lightning baby
Coming down on me

I see you walking with your head in the air
Love to you is nothing just some truth or dare
Never gonna change you cause you'll never be true
I've got something for you
I've got something for you

You've got your pretty face on
But you don't look so good no more
I've seen your smilin' face on
Vut your not laughing anymore

Your white lightning baby
Coming down on me
Your white lightning baby
Coming down on me

You got your pretty face on
But you don't look so good no more
I've seen your smilin' face on
Vut your not laughing anymore

Your white lightning baby
Coming down on me
Your white lightning baby
Coming down on me
