

Everybody here we go, everybody escuchelo
(ooh come on) trust one another
(ooh come on) like a sister and a brother
Here's the golden rule what everybody do
If your heart is true they put the trust in you
Are we there yet? you giving what you get
Learn and don't forget cause the alarm is set
Trust is what we got it's like a building block
Drum and bass that shock that make your body rock
Hear me now and learn-got no time to burn
Trust is what you earn, this court is now adjourned
(ooh come on) trust one another
(ooh come on) like a sister and a brother
Keep this in your heart and we can make a start
You know it isn't hard but you gotta play your part
Can we post up? (no) butter the toast up? (yeah)
Lift ya nose up, get ready for ya closeup!
Soon you gonna see we got the energy
As long as you believe we gonna make it be
Hear me now and learn-got no time to burn
Trust is what you earn, this court is now adjourned
(ooh come on) trust one another
(ooh come on) like a sister and a brother
Put your trust in me and maybe then you'll see
How we gonna do, a secret energy
Are we there yet? you giving what you get
Learn and don't forget cause the alarm is set
Trust is what we got it's like a building block
Drum and bass that shock that make your body rock
Hear me now and learn-got no time to burn
Trust is what you earn, this court is now adjourned
(ooh come on) trust one another
(ooh come on) like a sister and a brother
