

# Night Life

Tab Benoit

When the evening sun goes down  
You will find me, oh, hangin' around  
Yes, the night life, it ain't no good life  
But it's my life

And many people just like me  
Oh, dreaming of what it used to be  
Yes, the night life, it ain't no good life, no  
But it's my life

Now listen to the blues that they're playing  
Listen to what the blues are saying

And mine is just a, another scene  
From the world of broken dreams  
Yes, the night life, it ain't no good life, no  
Oh, but it's my life

Yeah, you know, the night life, it ain't no good life  
But it's my life now
