

## What I Live For

Tab Benoit

So you say that this is it  
You're just gonna leave  
And take away all the little things that I need  
Now wait just one minute  
It's my life, babe and I want you in it  
You are, baby, you are what I live for

Now sometimes I get bitter  
But ain't that just like a man?  
And sometimes I don't give all that I can  
But your sweetness, baby, is what I crave  
And this thing we've got, I'd like to save  
You are, baby, you are what I live for

I know that everything  
Can't always go as planned  
But baby, baby, baby, I'm holdin' out my hand  
So take a hold and come on in  
The cold outside got me shiverin'  
You are, baby, you, you are what I live for now
