

American Me

Tactical Sekt

Don't care what you say
You can never justify
Evil, misery
To need for them to die

Explain this one to me:
What was the crime?
It seems to me just to be
At the wrong place
At the wrong time

I can't believe
It's all involved
Why's it so acceptable
To have America by the balls?

There's no exception
We will hit back anyway
On some place
On some war
Our freedom is worth fighting for
Freedom is worth fighting for
