Take on the World

Tad Morose

Come join the circuitry it's me
Yes I've left the old ways, roaming free
Let us reach out one more time
Raise our banners, hold 'em high

This is your one chance to be free
So shout it out! Yeah! Leave me be
For all we know all hell might freeze
It makes no difference don't you see
Just set us free...

We shake the ground
Break up the clouds
Take on the world
Let it roll
In a different time
We made the sign
Shook the world
Let it roll

Take your chances, spin the wheel
Too much pressure, here's the deal
For all we know all hell might freeze
It makes no difference don't you see
Just set us free...
