

Will you ever see me like a possible lover again?
I am fed up to be your twin brother
You're not my sister
And every time I think of that
I want to
I want to say to you
I want to talk to you
When I look into your eyes I see a yellow butterfly
When I look into your eyes I see a yellow butterfly
Flying high in the beautiful summer sky
Every time I look into your eyes
I see a reflection of me
A distorted vision of reality
Don't waste your time
Trying to find a meaning
To everything
You might get disappointed
I'd really like to ??? in something personal
Something I would never hear or feel in someone else's song
I often get the feeling that there's something missing
I wish I were that yellow butterfly
Sparkling in your eyes
Don't waste your time
Trying to find a meaning
To everything
You might get disappointed
I think you should know better by now
I think you should know better
In the back of my mind
There are so many things I don't want you to know
In the back of my mind
There are so many things I don't want you to know
In the back of my mind
There are so many things I don't want you to know
I don't want you to know
I think you should know better by now
I think you should know better
I should know better
You should know better
When I look into your eyes
When I look into your eyes
When I look into your eyes
Yellow butterfly
