

Will you ever see me like a possible lover again?  
I am fed up to be your twin brother  
You're not my sister  
And every time I think of that  
I want to  
I want to say to you  
I want to talk to you  
When I look into your eyes I see a yellow butterfly  
When I look into your eyes I see a yellow butterfly  
Flying high in the beautiful summer sky  
Every time I look into your eyes  
I see a reflection of me  
A distorted vision of reality  
Don't waste your time  
Trying to find a meaning  
To everything  
You might get disappointed  
I'd really like to ??? in something personal  
Something I would never hear or feel in someone else's song  
I often get the feeling that there's something missing  
I wish I were that yellow butterfly  
Sparkling in your eyes  
Don't waste your time  
Trying to find a meaning  
To everything  
You might get disappointed  
I think you should know better by now  
I think you should know better  
In the back of my mind  
There are so many things I don't want you to know  
In the back of my mind  
There are so many things I don't want you to know  
In the back of my mind  
There are so many things I don't want you to know  
I don't want you to know  
I think you should know better by now  
I think you should know better  
I should know better  
You should know better  
When I look into your eyes  
When I look into your eyes  
When I look into your eyes  
Yellow butterfly
