

## Fast Car

Taio Cruz

I'm in a battle with my heartbeat  
The more I struggle the more I get deep  
I go full throttle down the dark streets  
And there is trouble ahead I can't weak  
It's like I'm running through a red light  
Girl you know you make me weak  
I should be hittin' all the brake lights  
Hold up, hold up oh

Girl you really turn me on, on, on, on  
You know you make my engine run, run, run, run  
And there's no turning back us  
We've gone too far  
I'll drive you like a fast car

Girl you really turn me on, on, on, on  
You know you make my engine run, run, run, run  
And there's no turning back us  
We've gone too far  
I'll drive you like a fast car

It isn't like me to get caught up  
But when you running you're never quite free  
I wasn't really meant to find love  
But now you found me and got me all weak  
It's like I'm running through a red light  
Girl you know you make me weak  
I should be hittin' all the brake lights  
Hold up, hold up oh

Girl you really turn me on, on, on, on  
You know you make my engine run, run, run, run  
And there's no turning back us  
We've gone too far  
I'll drive you like a fast car

Girl you really turn me on, on, on, on  
You know you make my engine run, run, run, run  
And there's no turning back us  
We've gone too far  
I'll drive you like a fast car  
Ooh ooh ooh ooh  
Ooh ooh ooh ooh  
I'll drive you like a fast car

I'm in a battle with my heartbeat  
The more I struggle the more I get deep  
I go full throttle down the dark streets  
And there is trouble ahead I can't weak  
I can't weak I can't weak

Girl you really turn me on, on, on, on  
You know you make my engine run, run, run, run  
And there's no turning back us  
We've gone too far  
I'll drive you like a fast car

Girl you really turn me on, on, on, on  
You know you make my engine run, run, run, run  
And there's no turning back us  
We've gone too far  
I'll drive you like a fast car  
Ooh ooh ooh ooh  
Ooh ooh ooh ooh  
I'll drive you like a fast car
