The 11th Hour

I search the world to find the girl I need, I need I know she's also searching out For me, for me I keep on going way past the 11th hour I keep on going way past the 11th hour To find you I keep on going way past the 11th hour I keep on going way past the 11th hour To find you I search the world to find the girl I need, I need I know she's also searching out For me, for me I keep on going way past the 11th hour I keep on going way past the 11th hour To find you I keep on going way past the 11th hour I keep on going way past the 11th hour To find you I will... I keep on going way past the 11th hour I keep on going way past the 11th hour To find you I keep on going way past the 11th hour I keep on going way past the 11th hour To find you I will...
