

# You're Beautiful

Taio Cruz

I think the stars are especially bright tonight  
And I love the way they shine  
Reflecting inside your eyes  
It's you and me forever  
That's what I know for sure  
My heart is here for you  
Just like an open door

I can't say in any better way  
Hard to explain  
What you mean to me

You're beautiful

And I can't find  
Any better line  
For design  
Any better sing for  
You're beautiful

I feel the sun  
He's especially warm today  
Well I guess you may  
I guess the rain, go and come back another day

You know I love your smile  
But that's all I need for me  
And living my life with you,  
It's just like a fantasy

I can't say in any better way  
Hard to explain  
What you mean to me

You're beautiful

And I can't find  
Any better line  
For design  
Any better sing for  
You're beautiful

I can't say in any better way  
Hard to explain  
What you mean to me

You're beautiful
