

# Hold On

Taj Jackson

I know the hood's getting rough just hold on  
But you gotta keep your head up, be strong  
It's gonna get better hold on, hold on  
Even though you're in pain just hold on  
You'll be back with us again and it won't be long  
Remember I'm your friend just hold on, hold on

Days in the hood ain't never easy  
Living the life of crime just to get some money  
Running in these streets was never part of you dream  
Praying that somebody save me  
Daddy left home and your mama so sick  
How she gone survive when she raising three kids  
Had to sell drugs or you wouldn't make it  
That part of your life was crazy  
Always hoping that tomorrow's gonna come  
And one day give back to all the ones that showed you love

I know the hood's getting rough just hold on  
But you gotta keep your head up, be strong  
It's gonna get better hold on, hold on  
Even though you're in pain just hold on  
You'll be back with us again and it won't be long  
Remember I'm your friend just hold on, hold on

Three shots right now then everybody running round  
Saw my homie hit the ground then he didn't make a sound  
That's how it ends in the hood everyday  
That's why we hustle cause we trying to escape  
Blood in your hands mama tell me what did you do  
Tell me why you got the po-pos looking for you  
That was four years and you did your time  
And all you ever wanted is a good life  
Always hoping that tomorrow's gonna come  
And one day give back to the ones that showed you love

I know the hood's getting rough just hold on  
But you gotta keep your head up, be strong  
It's gonna get better hold on, hold on  
Even though you're in pain just hold on  
You'll be back with us again and it won't be long  
Remember I'm your friend just hold on, hold on

I pray everyday  
That things are gonna change  
I hope you hear me (oh lord, oh lord)  
When I look to the sky  
I wanna cry  
No more tears in my eyes (oh no)

I know the hood's getting rough just hold on  
But you gotta keep your head up, be strong  
It's gonna get better hold on, hold on  
Even though you're in pain just hold on  
You'll be back with us again and it won't be long  
Remember I'm your friend just hold on, hold on

I know the hood's getting rough just hold on  
But you gotta keep your head up, be strong  
It's gonna get better hold on, hold on  
Even though you're in pain just hold on  
You'll be back with us again and it won't be long  
Remember I'm your friend just hold on, hold on
