

Beautiful World

Take That

Here standing in the rain
The sun has gone again and nothing's gonna change
Time, I need a little time
As you slip out of sight
And nothing heals the pain

And I know that it's you
That's stopping me from falling
Crashing down, losing ground
'Til I see you again
And you know

[Chorus]
The sun will shine, and we will see
There's nothing standing in our way
Love will stand and never break
I never thought this could be me
Do you feel what I feel
Every time that you are near it's a beautiful world
A beautiful world

Words are hard to keep inside
Even though I've tried, impossible to hide
And you know that it's me
That's stopping you from falling
Crashing down, losing ground
'Til I see you again
And you know

[Chorus]

I'll be the stars guiding you
I'll be the place that you hide
I'd run a thousand miles, a thousand miles
To be by your side

[Chorus]
