

# Beautiful

Take That

Let all that's simple pass you by  
Let all that lives be free to die  
We're all, we're all key to life  
Face all that rage and history  
It makes no sense to you and me  
We're all, we're all free to fight  
I broke all my vows, my common sense  
Says find vocation somewhere else

This should've been so beautiful  
Should've been my proudest moment  
How to have and lose you all  
How to be a disappointment  
Save your cheers and my applause  
I never was worth fighting for  
This should've been so beautiful  
Been so beautiful  
It could've been so beautiful  
Tonight

Lay all that's sinful down to rest  
May all our judgments be confessed  
We're all, we're all guilty now  
Drink for the crowd not for yourself  
Til someone hears your cry for help  
Let's all, let's all take a bow  
I spent all my mind on making sense  
It made no difference in the end  
This should've been so beautiful  
Should've been my proudest moment  
How to have and lose you all  
How to be a disappointment  
Save your cheers and my applause  
I never was worth fighting for  
This should've been so beautiful  
Been so beautiful  
It could've been so beautiful  
Tonight

I close my eyes and I am somebody else  
Tonight I close my eyes and I don't need any help  
Every moment of laughter  
Every moment I fear  
Every moment that you're not here

This should've been so beautiful, so beautiful, be so beautiful  
This should have been so beautiful, been so beautiful

This should've been so beautiful  
Should've been my proudest moment  
How to have and lose you all  
How to be a disappointment  
Save your cheers and my applause  
I never was worth fighting for  
This should've been so beautiful  
Been so beautiful  
It could've been so beautiful

Tonight
