

# Get Ready for It

Take That

Get ready for it  
Get ready for it

You said whatever you put out there  
Whatever you put out there is gonna come back  
You said whenever you are ready  
Whenever you are ready just let it all out  
And I know cos the enemy inside me  
Cos the enemy inside me is holding me back  
But we know there's something in the silence  
There's something in the silence

Get ready for it  
Get ready for it  
You said there's only one place left to find  
Together we can save the world tonight  
Get ready for it

You said every life is a lesson  
Are you a fool or a Kingsman?  
Cos only you know  
Hold on cos the volume is rising  
Yeah the volume is rising so you better hold on

The night is young  
Until it's over  
Until it's over  
The night is young  
The night is ours  
Until tomorrow  
Until tomorrow

Get ready for it  
Yeah get ready for it  
You said there's only one place left to find  
Together we can save the world tonight  
Get ready for it  
Get ready for it  
Get ready for it  
Get ready for it

The night is young  
Until it's over  
Until it's over  
The night is young  
The night is ours  
Until tomorrow  
Until tomorrow

Get ready for it

I'll hold your hand  
With good intentions  
With good intentions  
I'll hold your hand  
The night is ours  
Until tomorrow

Until tomorrow  
You said there's only one place left to find  
Together we can save the world tonight  
Get ready for it  
Get ready for it  
Get ready for it  
Get ready for it  
Get ready for it
