

# Giants

Take That

We are giants, I can't believe it  
We were giants all along  
On the surface and all around us  
We are giants, we are strong  
I see you standing, see you dancing  
On the pavement, in the park  
We are giants, can you feel it  
So much bigger than we thought

I think I might be heading out of body  
I've gotta love, you've gotta love somebody

When I look in your eyes  
I'm bigger than the night sky  
As high as the sun, hard as a stone  
We are giants, we are giants  
We are giants

There are giants across the water  
There are giants heading home  
In the middle of the madness  
There are giants being born

I feel us breaking out of empty glory  
I've gotta love, you've gotta love somebody like you

When I look in your eyes  
I'm bigger than the night sky  
As high as the sun, hard as a stone  
We are giants, we are giants  
When I look in your eyes  
I'm bigger than the night sky  
As high as the sun, hard as a stone  
We are giants, we are giants

We are giants in our hearts  
We are giants, every one of us  
We are giants in our hearts  
We are giants, we are giants

When I look in your eyes  
I'm bigger than the night sky  
As high as the sun, hard as a stone  
We are giants, we are giants  
We are giants  
We are giants  
As high as the sun, hard as a stone  
We are giants, we are giants  
We are giants
