

## Give You My Love

## Take That

When the walls are closing in  
And you're standing in the dark  
Don't know where you can begin  
All the pressure on your heart  
Heavy load inside your head  
No more colour in the sky  
I'll be lying in your bed  
Happy being here until I die

I see light just around the corner  
Make sense of it all when we're together  
I see you surrender put your hands up  
You'll be safe with me

I'm going to give you my love  
Know that my affection  
I'm going to give you my love  
Comes with my protection  
I wanna give you my love  
You are my addiction  
I wanna give you my love  
I can't give you up  
I'm gonna give you my love  
Know that I will listen  
I'm gonna give you my love  
My love no condition  
I wanna give you my love  
All of my decision  
I wanna give you my love  
I can't give you up

We're gonna make it to the end  
Even longer if we try  
We gonna find a place to land  
There'll be danger but we will survive

I see light just around the corner  
Make sense of it all when we're together  
I see you surrender put your hands up  
You'll be safe with me

I'm going to give you my love  
Know that my affection  
I'm going to give you my love  
Comes with my protection  
I wanna give you my love  
You are my addiction  
I wanna give you my love  
I can't give you up  
I'm gonna give you my love  
Know that I will listen  
I'm gonna give you my love  
My love no condition  
I wanna give you my love  
All of my decision  
I wanna give you my love  
I can't give you up

Don't ever think about that  
I will never hold you back  
Spread your wings butterfly  
Cause I'll be here till the day I die  
Till the day that I die

I'm going to give you my love  
Know that my affection  
I'm going to give you my love  
Comes with my protection  
I wanna give you my love  
You are my addiction  
I wanna give you my love  
I can't give you up  
I'm gonna give you my love  
Know that I will listen  
I'm gonna give you my love  
My love no condition  
I wanna give you my love  
All of my decision  
I wanna give you my love  
I can't give you up
