

Hope

Take That

Learn from every lesson
Face the lonely fear
Imagine that the tightrope was here
There's angels in the silence
The taste of your own tears
Is cold

Everybody needs a little hope, hope, hope
(Hope, hope, hope)

Bathe in every blessing
Burn your brightest flame
Love's the only bible we claim
Hide from every judgement
Trust what can't we see
And dream

Everybody needs a little hope, hope, hope
Hope, hope, hope
Hope, hope, hope

The stars are us
Light up, light up
Oh, the stars, they are us
Just look up
Look up

Everybody needs a little hope, hope, hope
Hope, hope, hope
Everybody needs a little hope, hope, hope
Hope, hope, hope

(Hope, hope, hope
Hope, hope, hope)
The stars are us
Light up, just light up
Oh, the stars are us
Just look up, look up
Light up, light up
Oh, the stars, they are us
Just look up, light up
Look up, light up
Everybody needs a little hope
