

# Hope

Take That

Learn from every lesson  
Face the lonely fear  
Imagine that the tightrope was here  
There's angels in the silence  
The taste of your own tears  
Is cold

Everybody needs a little hope, hope, hope  
(Hope, hope, hope)

Bathe in every blessing  
Burn your brightest flame  
Love's the only bible we claim  
Hide from every judgement  
Trust what can't we see  
And dream

Everybody needs a little hope, hope, hope  
Hope, hope, hope  
Hope, hope, hope

The stars are us  
Light up, light up  
Oh, the stars, they are us  
Just look up  
Look up

Everybody needs a little hope, hope, hope  
Hope, hope, hope  
Everybody needs a little hope, hope, hope  
Hope, hope, hope

(Hope, hope, hope  
Hope, hope, hope)  
The stars are us  
Light up, just light up  
Oh, the stars are us  
Just look up, look up  
Light up, light up  
Oh, the stars, they are us  
Just look up, light up  
Look up, light up  
Everybody needs a little hope
