

# Into the Wild

Take That

Up tied  
Tied up again  
Tied up again  
With my one and only friend  
Your voice is only I can hear  
All I can hear  
Is the music to my ears

Stay in out of trouble  
Stay in and out of touch  
In and out of touch  
Never get enough  
Up tied  
Tied up again  
Some things will never change

It's almost like  
We go dance with desire then  
We go playing with fire  
Then we go  
Into the wild again  
It's almost like  
We go dance with desire then  
We go playing with fire  
Then we go  
Into the wild again

Get back  
Get back to town  
These city lights  
Gonna bring us home tonight  
Cause we knew the colour of gold  
So long ago  
It's the story to be told

Stay in out of trouble  
Stay in and out of touch  
In and out of touch  
Never get enough  
Get back  
Get back to town  
Please come around tonight

It's almost like  
We go dance with desire then  
We go playing with fire  
Then we go  
Into the wild again  
Into the wild again  
Into the wild again

Let me run with you  
Let me run with you, my friend  
Let me be with you  
Running through the wild again  
Let me run with you  
Let me run with you, my friend

Let me be with you  
Running throught the wild again

It's almost like  
We go dance with desire then  
We go playing with fire  
Then we go  
Into the wild again  
Into the wild again  
Into the wild again  
Into the wild  
Into the wild again  
Into the wild
