

Lucky Stars

Take That

I left my shadow in the bedroom
I need to shake away the fuzz
Too much attention can destroy you
Too much affection not enough
You got me hooked, I'm fascinated
My body's crawling on all fours
Before I lose myself to Mother Nature
Before I give myself some more

Because the world is changing
(Our world is changing)
Because you turn me on

I'm gonna count my lucky stars
I love you just the way you are
I'm gonna count my lucky stars
I love you just the way you are

No need to ask me for direction
Oh, there's a side of our control
I'll take your word as confirmation
All of the sky into my soul
While they are searching for perfection
I'm trying not to understand
You may have lost me in your conversation
You may have found me in the end

Because the world is changing
(Our world is changing)
Because you turn me on

I'm gonna count my lucky stars
I love you just the way you are
I'm gonna count my lucky stars
I love you just the way you are

Yeah, our thoughts divided
Before the night has faded
Stay with me 'til Sunday morning
Won't you stay 'til Sunday morning?

I'm gonna count my lucky stars
I love you just the way you are
I'm gonna count my lucky stars
I love you just the way you are
I'm gonna count my lucky stars
I love you just the way you are
I'm gonna count my lucky stars
I love you just the way you are
