Portrait

Life slow down You've gone too fast And words begin to mean a little less

Bones stay strong Cause the road ahead is long And every voice will miss us when we're gone

Take a portrait, 25 let me hear you singing it out Ba ba ba ba ba ba ba (2x) Let me hear you singing it out Ba ba ba ba ba ba ba ba

Skin don't stretch It's way too new And those who look back are only the fools

Take a portrait, 25 let me hear you singing it out Ba ba ba ba ba ba ba Yeah I'm singing it out Ba ba ba ba ba ba ba Let me hear you singing it out Ba ba ba ba ba ba ba ba (2x)

Years don't come too soon And days be long and light Future you can wait Cause time's still on our side

Take a portrait, 25 let me hear you singing it out Ba ba ba ba ba ba ba ba (2x) Let me hear you singing it out Ba ba ba ba ba ba ba Yeah you're singing it out Ba ba ba ba ba ba ba Oh sing it out You're free to come alive You're free to come tonight **Take That**
