

Trouble With Me

Take That

You must think I'm crazy
Think that I'm a fool
I'm hopelessly romantic
Whenever I'm with you
To see the world through my eyes
And never look too far
We're meant to be together
It's written in the stars

We're walking the high way
Doing it our way
Nothing's ever really out of reach

Baby baby, I'm not crazy
I just wear my heart on my sleeve
I never think it over or say maybe
Oh, and that's the trouble with me
I don't wanna talk it over
I carry the world on my shoulders, yeah
Baby, baby you can save me
I'll always wear my heart on my sleeve
That's the trouble with me
That's the trouble with me

I follow my emotions
They always call my name
You tell me how you're feeling
I'm sure I'll feel the same
Of dreamy constellations
You're always in my heart
The road it always takes me
Back to where you are

I'm driving the highway
Doing it my way
When I know you're never really out of reach

Baby baby, I'm not crazy
I just wear my heart on my sleeve
I never think it over or say maybe
Oh, and that's the trouble with me
I don't wanna talk it over
I carry the world on my shoulders, yeah
Baby, baby you can save me
I'll always wear my heart on my sleeve
That's the trouble with me

Oh I never wanna calm down
Oh I never ever wanna touch the ground again

Never learn my lesson
Never wanna change
Loving you will hurt me
Give me the pain

Baby baby, I'm not crazy
I just wear my heart on my sleeve

I never think it over or say maybe
Oh, and that's the trouble with me
I don't wanna talk it over
I carry the world on my shoulders, yeah
Baby, baby you can save me
I'll always wear my heart on my sleeve
That's the trouble with me.
