

Waiting Around

Take That

Oh, this day,
I couldn't sleep at all tonight,
thinking what it would be like
Next day.
I stood and watched
this way.
Baby, it never was that odd,
she never even made a call
to say.

But if she thinks that it'll taken aback
when she always lets me fall,
she says she loves me tonight,
she never loved me at all!

You've got me waiting around
too long and now I must go.
You've got me hooked on a string
so you can pull me every time
you want me to be near.

Now she says
she's gonna give me everything,
making plans to take me in,
be brave.
So how it rounds all day,
it seems she's right and high again!
Now she's found another friend to date

But if she thinks that it'll taken aback
when she always lets me fall,
she says she loves me tonight,
she never loved me at all!

You've got me waiting around
too long and now I must go.
You've got me hooked on a string
so you can pull me every time
you want me to be near.

You've got me waiting around
too long and now I must go.
You've got me hooked on a string
so you can pull me every time
you want me to be near.

You've got me waiting around
too long and now I must go.
You've got me hooked on a string
so you can pull me every time
you want me to be near.
