

# We All Fall Down

Take That

I'm better now,  
I'm bigger than the man you made me  
There you go, I think I'm Happy  
I've seen the light, cut the ties for now I'm sober,  
There's still so much to do before I hit the ground.

Oh life, you can take your first steps  
Walk into a brick wall, Try your best to stand tall, before you  
learn to crawl  
Love is never easy unless its in a movie  
But I'm not Jamie Dean, I said I'm not Jamie Dean.

[Chorus]

And we all fall down out of the sky into the basement, looking  
for a way back up again  
Yeah we all walk up slowly up the stairs onto the pavement, loo  
king for the place where we belong  
The place where we belong.

I smile again,  
I haven't smoked now for a whole day  
I think I've given up.  
I love that song, the one that says how I wish you were here,

But I'm back on the ground, I can't wait another year.

Oh life, you can take your first steps  
Walk into a brick wall,  
Try your best to stand tall, before you learn to crawl  
Love is never easy, only in some poetry.  
But I'm not Oscar Wilde, I said I'm not Oscar Wilde

[Chorus]

Oh, yeah.

[Chorus]

Looking for a way, looking for a way back up again  
And we all walk slowly up the stairs onto the pavement, looking  
for the place,  
The place where we belong.
