

We Love To Entertain You

Take That

Been thinking it over,
Been waiting to tell ya,
Got the sun on your face,
Been thinking of you
Can't wait any longer,
Just gotta get to ya,
Gotta get in your mind
Been thinking of you

Got new blood in these veins yeah
Got some charge in our soul!

We love to entertain you
and to get to know you
Your world
Is our world
Welcome
We love to entertain you
We love to entertain you

Yeah, Baby it's alright,
We ain't goin nowhere
We won't ever leave
We're here with you
Look at the horizon
Just look at the stars babe
Take look in these eyes
They're lookin at you

Got some light up ahead yeah
Got some charge in our soul!

We love to entertain you
and to get to know you
Your world
Is our world
Welcome
We love to entertain you

Oh, can you see it now? (don't try to stop it)
Can you see it now? (just have it all, just have it all)
Look what we've started now (say you want it)
Let it all go (don't try to stop it...)

(Say you want it ...) Can you see it now?
(Don't try to stop it ...) Can you see it now?
(Have it all ...) Look what we've started now
(Have it all...) Let it all go

We yeah we love to entertain you,
We, we would love to get to know you,
Your world
Is our world
Welcome!
We love to entertain you

Oh oh!

Aahhh!

We yeah we love to entertain you,
We, we would love to get to know you,
Your world
Is our world
Welcome!
We love to entertain you.
