

Take Control

Take The Crown

With a little bit of confidence
Your cleverness will save you everytime
You could be onto something good
Your work is evident
Show a little bit of character
Your in all or nothing now
Make your mark or take your seat
Better bring them all to their feet

Not giving up this time, not giving up
Please watch closely

All these thing that you said wont mean a thing tomorrow
If your waiting for a sign you'll never know
You know it's not enough to just talk about it, take control
The world is in your hands don't let it go

With a little bit of certainty
Your words might save a life or two
You got a lot to say
So show them what it's like
You could write a hit or two
Maybe make the world go crazy
Now get them hanging on every verse
And it can last forever
Not giving up this time. not giving up
Please watch closely

All these thing that you said wont mean a thing tomorrow
If your waiting for a sign you'll never know
You know it's not enough to just talk about it, take control
The world is in your hands don't let it go
