

This Is Your Cue

Take The Crown

I can tell by her voice
I can tell she's shaking
At least keep me guessing
I can feel it's not right
I can feel her faking
On my own

Say it softly, to me

Don't stop breathing, I'm trying
Don't stop fighting, I'm letting go tonight

Do you care if I know
Or should I reach in your mind
At least stop pretending
I can see in your hands
I can see you breaking
On my own

Don't stop breathing, I'm trying
Don't stop fighting, I'm letting go tonight

Why aren't you hear for me
I'm dying for you, I'm dying for you

Don't tell me, it's over.
I'm screaming, can you hear me scream

Don't stop breathing, I'm trying
Don't stop fighting, I'm letting go tonight

Why aren't you hear for me
I'm dying for you, I'm dying for you

Can you hear me scream
